EDUCATION

Pranveer Singh Institute of Technology 2023 – Present
B.Tech in Computer Science **81.4% (up to 6th Semester)**
St. Thomas School 2023
Higher Secondary Education **86.6%**
St. Thomas School 2021
Secondary Education **92.83%**

TECHNICAL SKILLS

Languages: C++, Java, JavaScript
Frontend: HTML5, CSS3, Tailwind CSS, React.js
Backend: Node.js, Express.js, REST APIs, Socket.io
Databases: MongoDB, MySQL
DevOps & Tools: Docker, CI/CD, Git, GitHub
AI/LLM: OpenAI API, LangChain, Streamlit
Core: Data Structures & Algorithms, OOP, DBMS, Computer Network

PROJECT EXPERIENCE

Hyperlocal Commerce Platform Ongoing
React.js, Node.js, Express.js, MongoDB, Socket.io, Razorpay
GitHub

- Built a marketplace connecting buyers with nearby sellers for location-based product discovery and commerce.
- Developed location-aware REST APIs using MongoDB geospatial queries to retrieve products and sellers within a defined radius.
- Implemented real-time buyer-seller messaging with Socket.io using event-driven communication and live conversation updates.
- Integrated Razorpay payment workflows and designed backend APIs for product discovery, seller interaction, and transaction processing.

AI-Powered Conversational Assistant May 2026 – Jun 2026
React.js, Node.js, Express.js, OpenAI API
GitHub

- Built a conversational AI application supporting persistent chat threads and context-aware multi-turn conversations.
- Integrated OpenAI API through a Node.js/Express backend to handle LLM requests and conversation workflows.
- Implemented chat and thread management for creating, switching, and continuing multiple conversations.
- Developed reusable React components and state management for seamless multi-message chat interactions.

StayEase – Property Discovery Platform Oct 2025 – Jan 2026
Node.js, Express.js, MongoDB, EJS, Passport.js, Cloudinary
GitHub Live

- Developed a property discovery platform with authentication, listings, reviews, image uploads, and location-based exploration.
- Designed RESTful CRUD APIs with Node.js and Express.js for managing users, properties, and reviews.
- Implemented secure session-based authentication and authorization using Passport.js and Express middleware.
- Integrated MongoDB Atlas for persistent data storage and Cloudinary for property image storage and management.

ACHIEVEMENTS

- Solved **550+ DSA problems** across LeetCode and GeeksforGeeks.
- Ranked among the **Top 5,000 teams out of 25,000+ teams** in the Build with India Hackathon.

CERTIFICATIONS

- AWS Academy Graduate – Generative AI Foundations – Training Badge Oct 2026
- Web Development Certification – Apna College
